

BlackBelt
"Haul-It-All" Conveyor Body

Anyone can haul and spit out asphalt, but they can't do it with large stone and boulders. This brute does it all with its 54" wide conveyor and high-lift tailgate.

Magnum
Demolition Dump Body

Available in 12' to 19' lengths and designed for all materials. Elliptical design is self-cleaning, low mounting height and a low center of gravity.

MARK E
Tandem Axle Dump Body

The World's most customizable tandem axle dump body. Select from an array of options (head sheets, side walls, tailgates, etc...). Built budget friendly.

MARK E
Single Axle Dump Body

Designed for the single axle chassis, this unit is just as customizable as it's bigger brother. Built specific to your operation and/or budget demands.

MARK THREE
Utility Dump Body

A rugged unibody design with one-piece floor. Easy to install, with optional steel side boards to accommodate greater load capacities.

MARK FOUR
Contractor Dump Body

A contractor's dream. Optional split drop-sides let you decide what to unload and where. Optional steel side boards nearly double load hauling capacity.

Wedge Tanks
Liquid Application

Designed to work with our dump bodies and tailgate spreaders. These easily removable units provide high volume capacity for pre-storm treatments.

PWS
Pre-Wetting Systems

Pre-wetting means a faster brine, less melting time. Acts like glue, effectively sticking granular materials to pavement. Choose hydraulic or electric.

Direct Cast
On-The-Go Directional Control

The Direct Cast spinner system provides complete in-cab control, on-the-go. Offering precision application of output, coverage pattern and direction.

We offer a wide array of products and options not shown here. For more information, visit us online or call toll free. If we don't already offer it, we'll work with you to find that perfect solution.

INNOVATIVE PRODUCTS

Tailoring our equipment to meet REAL WORLD demands.

MUNIBODY
22° Combination Body

This high capacity, lower center of gravity (increased stability) combo body works year round. Conveyor delivers granular material to the front or rear.

MUNIBODY
35° Combination Body

This combo body offers an increased slope for handling stubborn materials. Conveyor delivers granular material to the front or rear.

MUNIBODY-FF
Flat Floor Combination Body

This flat floor combo body keeps pace with it's siblings. Works with most of our insert packages and shares several of the MARK E line options.

MUNIBODY
Asphalt Body

Specifically designed to work with asphalt paving machinery. Won't hang up on asphalt or seal coat lay down machines, even at a 50° angle.

MUNIBODY III
Mid-size Trucks

An affordable midsize spreader/dump body combination to rival the big boys. Smooth flow of materials and self-cleaning design makes your job even easier.

LAS
Liquid Application System

Designed for anti-icing, de-icing, dust control, weed control, water transporting, plant watering, soil stabilization and fire control.

FRS
First Response System

Our premier "All-In-One" winter system. First on the scene, puts granular, pre-wetted granular slurry and/or anti-icing capabilities right at your fingertips.

TASKFORCE
Granular / Liquid

Whether you need granular materials, pre-wetted granular, slurry and/or liquid anti-icing, it's all just the push of a button away with the TaskForce.

FSH
Heavy-Duty Spreader

Built to master the elements in heavy-duty fashion. Available in six different models, single or dual auger and in several capacities.

FSM
Medium-Duty Spreader

Compatible with all utility dump bodies. Built strong to handle the tough jobs. Quick and easy installation, removal and storage.

FSP
Rugged Pick-up Spreader

Reliable and rugged spreader fits any size pick-up. Installs almost instantly. Available in a variety of lengths with capacities to 4.0 cubic yards.

HPS-Lite
Light Pick-up Spreader

Lighter weight and lower cost compared to the alternative pick up spreaders in the market, with all the adaptability traits of the FSP. Available in 8' length.

TGS
Tailgate Spreader

A low-maintenance, hard working tailgate spreader. Doesn't interfere with normal hauling or dumping operations. Available in stainless or mild steel.

RTS
Replacement Tailgate Spreader

Fits most MARK Series dump bodies. Installs and removes easily. A tough spreader at a gentle price.

SNOWFOE Series
Snow Plows

State-of-the-art. Manhandles snow and ice with unique designs that keep their nose to the grindstone even in the most demanding conditions.

SNOWFOE Series
Wings

Seven flame cut ribs for maximum rigidity. Rips right through heavily packed shoulders. Offering patrol wings, mid-mount wings, and leveling wings.

SNOWFOE Series
Underbody Scrapers

Henderson offers two underbody scraper models, a heavy-duty hard worker, year round scraper and a lighter weight fixed angle scraper.

SNOWFOE Series
RSP-OC w/Squee-G

This reversible snow plow was designed with outboard cylinders, moldboard trip edge and the optional Squee-G blade to wipe streets clean.
