

TITAN CRANE SERVICE BODY

To meet the needs of the ever changing work truck market, Auto Crane offers the newly reconfigured TITAN crane service body aimed at the truck fleet market. Many of the proven features of the original TITAN work body have been included in these new cost effective models.

Specific Features:

- Patented one piece wrap around design reduces rust potential
- Available in the following sizes: TITAN 16, TITAN 38, TITAN 50 and TITAN 60
- Compatible with all North American manufactured chassis
- Flush door panels with bulb seal gasket
- Compressor plates for mounting
- Standard rear lighting system
- Interior dome light in each cabinet
- 12" bumper with anti skid pad on top
- Diamond plate on floor of the body
- Bedliner – floor, sides and box top and the interior of the tailgate (optional)
- Black tire well trim
- Receiver hitch
- Outriggers – manual down, hydraulic out

Options:

- Welding Unit
- Air compressor
- Hydraulic power unit with integral welder and air compressor, PTO driven
- Hydraulic out and down outriggers
- Available in aluminum construction
- Available in stainless steel construction
- Additional options available on customers request

Offering many of the features of the traditional TITAN crane service body, the new TITAN crane service body has been reconfigured to fit the base requirements for most fleet applications. This is another example of Auto Crane's position as a leader in the work truck industry. Contact your Auto Crane representative or distributor for more details.
